

MINUTES

MEETING:		
DATE: 03/05/24	TIME: 16:30	DURATION: 1 hour
MINUTES TAKEN BY: Josh Bradley		

ATTENDEES: Luke Warbey, Hari Mamman, James Stevenson, Josh Bradley, Rob Walker, William Betteridge, Jabez Cheung
APOLOGIES: Noah Carter, Zhihao Ma

TITLE: Current Direction
DISCUSSION:
Pages are now going to be hard coded. User data goes in XML Rob says do easy things in XML. Currently video and audio does not work with sizing and position XML Building has been implemented successfully.

TITLE: DOM API
DISCUSSION:
DOM API can implement: read, write, modify and store from xml. Will is working on extra methods

TITLE: FTP Library
DISCUSSION:
Needs to: DOM Parser can write to an existing file, probably overwrite a file or create new. FTP: Checks all files. If there is an update, updates the stored files may keep the old file as backup. Could run into conflict with simultaneous users.

TITLE: Password protection
DISCUSSION:
Jabez wants to use Bcrypt for salting/hashing

TITLE: Financial Review
